EXPERIENCES

LEBOCAL ACADEMY MARCH 2020 - FULL STACK SOFTWARE ENGINEER.

After 12 years as a Master Technician working for different companies, I decided to learn and become a Full-Stack developer. After a few months of market analysis, I found out that JavaScript was one of the most versatile language, with its many frameworks, you can do a lot of things with it. I learned a lot with this «bootcamp» oriented around the full-stack (MERN) from Vanilla Js to Databases or Scrum, I gained a lot of knowledge and worked on many projects (Such as an Instagram «clone»). I am now looking for an Internship or Entry-level job to use my new skills for a company. Please get in touch!

Sophia Antipolis, FRANCE

BENTLEY JACK BARCLAY 2018 / 2019 TECHNICIAN.

I carried every kind of mechanical repair and diagnostic, following the high standards of the brand.

London, UNITED KINGDOM.

RENAULT 2016 / 2018
